## EXPERIENCE

**Full Stack Web Developer Intern – AI-Powered Education Platform**

jan. 2026 – Present

*Creator (@civoraX)*

Civora Nexus

- developing and maintaining a full-stack **MERN** application for an **AI-driven** education platform.
- Designing and consuming **RESTful APIs** using **Node.js** and **Express.js** for seamless frontend-backend communication.
- Implementing **MongoDB** for efficient data modeling, storage, and retrieval of user and course information.
- Integrating AI-enabled features such as intelligent chat assistance and automated certificate generation to enhance user engagement and platform scalability.
- Applying authentication, authorization, and performance optimization best practices across the application.

## PROJECTS

### amazon clone

- Developed a static Amazon homepage clone with clean layout and structured UI using **HTML and CSS**.
- Focused on **responsive design, navigation bar, product sections, and visual consistency**.

### E-Commerce Platform (Cara)

- Built an interactive e-commerce website with product listings and dynamic UI behavior using **JavaScript**.
- Implemented responsive design and reusable components for a smooth user experience

### Job Portal

- Developed a full-stack job portal application using **MongoDB, Express, React, and Node.js**.
- implemented **user authentication, job posting, and application management features**.
- implemented **R-BAC** to manage permissions for different user roles.

### E-Learning Platform

- Developed a modern e-learning platform using **React with responsive and reusable components**.
- Designed student-friendly UI with Tailwind CSS to enhance accessibility and learning experience

### Infoshard clone

- Created a responsive clone of the Infoshard website using **Bootstrap and custom CSS**.
- Implemented grid system and components to ensure cross-device compatibility.

## SKILLS
